

Encuentro y Misión Program: Theological Education for Latino Millennials and Gen Z

Participant Partnership Agreement

Overview and Purpose: Catholic Extension in conjunction with Mexican-American Catholic College (MACC) offers well-rounded Latino young adults who have completed diocesan formation and are looking for subsequent opportunities to learn and serve, a unique theological education and mission experience. The program is national in scope and crosses geographic and socio-economic borders with participants from diverse backgrounds. It will expose them to diverse pastoral and socio-economic realities (border issues, migrant workers, etc.) that will help deepen the learning experience by allowing the concepts and theories they learn in the classroom to come alive in their experiences.

The program seeks to create pathways for emerging Latino leaders to discover more about their faith, society, culture, and to discern how they are being called to build a stronger Church and world. Our goal is to cultivate talented, generous, well-grounded and compassionate Latino/a faith leaders who will go on to pursue theology degrees, ministry and/or service in their churches and communities.

Due to the COVID-19 pandemic and keeping in mind safe health measures for all, the program has been redesigned. Please see the updated Program Summary and Program Structure.

Program Summary: The program will gather a cohort of 15-20 students to participate in a virtual 3-week summer introductory course, a 15-week fall course RESPETO, a transformational leadership formation program for Latina(o) young adults by MACC; a week-long supervised virtual or in-person missionary immersion experience that will occur in a marginalized community in our country; and a wrap-up weekend intensive where they'll reflect and share their experiences and ideas with other participants and with their "missionary mentors". These experiences are meant to broaden their horizons and open their eyes to various pastoral, social, economic, and the current COVID-19 realities.
